**1** Connect the THX Onyx™ to your Android device, then plug your headphones into the THX Onyx.

2 Launch the Onkyo HF Player app.

3 Tap the gear icon in top right and choose **Settings**.

Note: in order to use Onkyo HF Player with an external DAC with hi-res audio such as the THX Onyx, the Onkyo HF Player Unlocker must be purchased. If you have not yet purchased the Unlocker, the settings menu offers a **Full-Featured Functionality** button with more information.
4 Scroll down and set **DSD Output Format** to **DoP**.

5 You are now ready to experience great audio on your THX Onyx! For more questions please visit **thx.com/thx-onyx**.
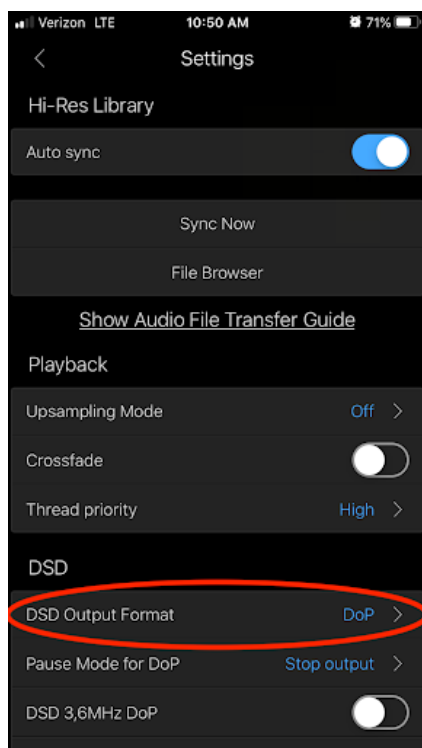

1 Using the USB-A adapter and a slim Lightning to USB Camera adapter as pictured below, connect the THX Onyx to your iOS device and then plug your headphones into the THX Onyx. *THX Onyx for iOS requires the slim Apple Lightning to USB Camera Adapter (sold separately.) All other Lightning adapters are incompatible, including the wide Apple Lightning to USB 3 Camera Adapter.*

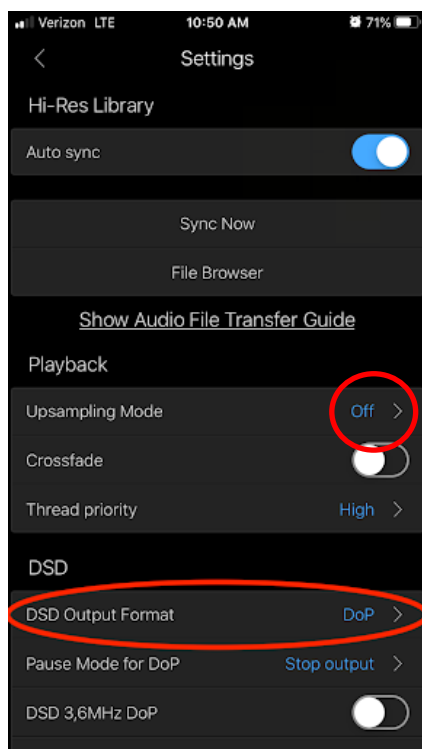

2 Launch the Onkyo HF Player app.

3 Tap the gear icon and choose **Settings.**

4 Scroll down and set **DSD Output Format** to **DoP**. If you receive a disclaimer message, choose "Agree and Continue."

5 Under Playback, turn off **Upsampling Mode**.
